

Welcome to

Trane Vietnam Seminar Program

Understanding Chilled Water System Design and New Generation Refrigerant Trend.

What is the chilled water system?

What are the different types of industrial chillers?

How to calculate cooling load for building or factory?

What type of refrigerant does a chiller use?

Date:

Sunday, Jan 21th, 2024

Time:

08:00am – 11:00am

Address:

Room F - 402

Presenter:

Nguyen Minh Son
Application Engineer

Registration

RSVP by Jan 21th, 2024, via email son.nguyenminh@trane.com

DISCUSSING OBJECTIVES

- Basic of chilled water systems with water-cooled and air-cooled chillers.
- Introduction type of cooled chiller.
- Introduction engineering toolbox.
- Update refrigerant – New generation refrigerant.
- Question.
